Education

Bachelor of Technology in Computer Science and Engineering 2021 - 2025
Universal Engineering College, Thrissur

- CGPA : 9.15

Higher Secondary Education 2019 - 2021
Chentrapinni HSS, Thrissur

- Percentage : 98.3

Projects

Brain Tumor Detection using Deep Learning and Genetic Algorithm

- Developed a system for automated brain tumor detection in MRI images, leveraging image processing techniques and optimization through Genetic Algorithm with an accuracy of 97%.

College Leave Management System

- Implmented a Leave Management System for the college with processes leave applications, approvals, and tracking.

Brightness Control System

- Developed a real-time gesture recognition system using OpenCV, enabling users to control brightness through hand gestures.

Courses

Full Stack With Python Intern

Cloud Innovations

Artificial Intelligence and Python

Pacelab

Skills

Languages

C, C++, Python, Java, SQL, HTML

Soft Skills

Time Management, Teamwork, Problem Solving, Leadership, Critical Thinking

Developer Tools

VS Code, GitHub

Workshops

Cryptocurrency and Block Chain
